timeXtender Expands North American Reach with Columbus IT USA as New Partner

timeXtender, a leading provider of Business Intelligence tools, today announced that Columbus IT USA has been signed as a new timeXtender partner. Columbus IT is one of the world's largest implementers of Microsoft Dynamics solutions, and the partnership represents a further strengthening of timeXtender's market presence in North America.

timeXtender offers easy implementation of BI solutions with its Microsoft SQL Server-based data warehousing and cube generation tool which requires no coding.

"One of the great advantages of partnering with timeXtender is the rapid time to deployment and ease of maintenance. As a result, we are now able to offer our Microsoft Dynamics clients BI solutions that bring immediate value to their organization," says Thomas Hauge, Country Manager, Columbus IT USA. "Our clients will gain enhanced business insights and be empowered to make accurate and timely decisions."

Heine Krog Iversen, CEO of timeXtender welcomes this latest partnership: "This new partnership with Columbus IT USA will help us expand our presence throughout America. Columbus IT has a tremendous track record with the Microsoft Dynamics community, and we are looking forward to working with them."
