timeXtender[®], the Data Warehousing and ETL Provider, Expands into Iceland

timeXtender, the leading provider of data warehousing and ETL tools, today announced that Iceland-based Opin kerfi has been granted exclusive distribution rights for timeXtender in Iceland. timeXtender offers rapid implementation of ETL-based data warehousing solutions running on Microsoft[®] SQL Server[®].

timeXtender already has a solid client base in Iceland and Opin kerfi will distribute the product in the name of timeXtender Iceland. The agreement ensures active local support to both timeXtender clients and partners.

"The interest from the Icelandic market has been considerable, and the distribution agreement is a natural extension of the strong relationship between Opin kerfi and timeXtender," says Heine Krog Iversen, timeXtender CEO.

Opin kerfi is one of the largest sales and support partners for Microsoft products and solutions in Iceland, and experts in delivering Business Intelligence based on Microsoft SQL Server. With a dedicated team of Business Intelligence professionals, timeXtender Iceland will provide client and partner services as well as consultancy services throughout Iceland.

"timeXtender is an important force in the data warehousing and ETL market, and we look forward to new opportunities with this agreement," says Stefán Stefánsson, Opin kerfi Specialist & Consultant. He continues, "The agreement with timeXtender shows our commitment to helping customers overcome the pains and complexities typically associated with BI projects. With timeXtender our customers will experience a dramatic cut in implementation time and a much faster return on their Business Intelligence investment."
