timeXtender and Columbus IT United Kingdom Partner to Deliver Business Intelligence

timeXtender, a leading provider of Business Intelligence tools, announced today that Columbus IT United Kingdom has joined the timeXtender partner program to serve Business Intelligence clients in the UK.

timeXtender offers easy implementation of BI solutions with its Microsoft SQL Server-based data warehousing and cube generation tool which requires no coding. The timeXtender tool is now an integral part of Columbus IT's Business Intelligence portfolio.

"We are delighted to be working with timeXtender. The partnership will be of significant value to our customers, who will benefit from rapid delivery and easy maintenance of Business Intelligence solutions. timeXtender has a proven customer base in Europe and North America, and we look forward to a successful partnership," said Mary Hunter, Managing Director of Columbus IT United Kingdom.

"We are very pleased to welcome Columbus IT United Kingdom to our partner network. The UK market is important to us, and we are convinced that working together with Columbus IT, we will continue our growth and strengthen our UK platform," said Lars Vestergaard, Executive Vice President of Sales at timeXtender. "Columbus IT is a recognized leader within the Microsoft Dynamics ERP market, and we are confident that the partnership will be of benefit to both organizations."

About timeXtender

timeXtender® is a dynamic and innovative Business Intelligence software house that develops the product timeXtender® - a SQL Server-based data warehousing and OLAP cube tool that requires no coding. timeXtender is also the creator of QuickCubes - predefined and easily deployed Business Intelligence solutions. timeXtender has been named Microsoft ISV Partner of the Year in Denmark in both 2010 and 2008. Headquartered in Denmark, with offices throughout Europe and in the USA, timeXtender is an international, partner-driven company.
