

November 2008

Danish BI software successful in Ireland

With the addition of a new Gold Partner, Sysco Ltd., timeXtender's partner and customer base now also includes Ireland. The strategic partnership is a major step forward in the distribution of timeXtender's BI software in Western Europe.

"We chose Sysco because they are leaders within the field of Business Intelligence, and they have already gained new customers with timeXtender," says timeXtender CEO Heine Krog Iversen.

For Sysco the partnership with timeXtender means they can build a whole new customer base. The company already has six timeXtender certified consultants, who'll be responsible for implementing timeXtender customer solutions – including a solution at LAN Communications.

"We have looked at a number of different BI tools over the past few years to find the perfect match for our MS Navision/Nav customers. We believe we have found the right solution with timeXtender. timeXtender accelerates the implementation of Business Intelligence solutions significantly, and at the same time our customers achieve quick and easy access to valuable and trustworthy information. With timeXtender we can empower our customers to easily extract intelligence from their commercial database." So says Mr. Charlie Donnelly, Managing Director, Sysco Ltd., Ireland
